

# SCARLAT CRISTIAN GABRIEL

Front End Developer

+40725423191

scarlat.cristian.gabriel@gmail.com

Bucharest, Romania

<https://github.com/scarlatcristian>

## SUMMARY

Motivated and self-taught Frontend React Developer with a strong foundation in HTML, CSS, JavaScript, and React. Experienced in working with Redux, NodeJS, MongoDB, and familiar with Figma, Jira, and Git. Skilled in developing user-friendly interfaces and collaborating effectively in team environments. Continuously learning and adapting to new technologies to deliver high-quality code.

## EXPERIENCE

### Front End Developer

#### ITexclusive

06/2023 - present Bucharest, Romania

- Collaborate with the design and marketing teams to understand project requirements and translate them into functional and visually appealing ecommerce websites
- Developing frontend components using JavaScript, CSS, and HTML to create interactive and responsive user interfaces for ecommerce websites
- Preparing documentation, including code comments and project specifications for better understanding and future maintenance
- Conducting testing and debugging to ensure cross-browser functionality
- Implement static pages, such as landing pages, about us, contact, and FAQs, adhering to best practices for design, usability, and SEO
- Provide technical support and assistance to clients and team members during the development and maintenance phases

### Customer Care Agent - Spanish customers

#### Vodafone Shared Services

02/2018 - 02/2019 Bucharest, Romania

Performing inbound calls from clients – managing the calls efficiently and effectively, acting as the first point of contact in the relationship with clients and offering support for their requests, such as:

- Misunderstandings of invoices - explaining the invoices and offering solutions for the resolution of disputes
- Adding or removing services
- Offering the best solutions and /or alternatives to customers to their concerns
- Managing benefits in a balanced way both for the client and for the company

### Portuguese

Advanced

## TRAINING / COURSES

### JavaScript Certification

The Complete JavaScript Course by Jonas Schmedtmann

### React Certification

The Complete Guide by Andrew Mead, React 18 with Redux Toolkit by John Smilga

### NodeJS Certification

The Complete Node.js Developer Course by Andrew Mead

## PROJECTS

---

### Chat App

Developed a real-time chat application using Node.js, Express, and Socket.IO, allowing users to communicate in real-time across different chat rooms.

---

### Calculator

Built a web-based calculator with HTML, CSS, and JavaScript, offering standard mathematical operations.

### Landing Pages using Sass and React

Created visually appealing landing pages using Sass for styling and React for dynamic content and interactivity.

### Weather App

Build a weather application using React and an API, providing users with the current weather conditions and forecasts for different location.

### Movie App

Developed a movie discovery application using React, allowing users to search for movies, view details and save favorites.

### Reusable components

Developed and implemented a wide range of reusable components, including complex UI elements like a multi-step form with validation, customizable filters for data visualization, and dynamic landing page templates.

The utilization of these reusable components significantly accelerated development time by 30% across multiple projects. Moreover, their widespread adoption enhanced code maintainability and consistency, fostering a more efficient and collaborative development environment.
