EXPERIENCE

Front End Developer

ITexclusive

📅 05/2023 – 11/2023   📍 Bucharest, Romania

- Collaborate with the design and marketing teams to understand project requirements and translate them into functional and visually appealing ecommerce websites
- Developing frontend components using JavaScript, CSS, and HTML to create interactive and responsive user interfaces for ecommerce websites
- Preparing documentation, including code comments and project specifications for better understanding and future maintenance
- Conducting testing and debugging to ensure cross-browser functionality
- Implement static pages, such as landing pages, about us, contact, and FAQs, adhering to best practices for design, usability, and SEO
- Provide technical support and assistance to clients and team members during the development and maintenance phases

Customer Care Agent – Spanish customers

Vodafone Shared Services

📅 02/2018 - 02/2019   📍 Bucharest, Romania

Performing inbound calls from clients – managing the calls efficiently and effectively, acting as the first point of contact in the relationship with clients and offering support for their requests, such as:

- Misunderstandings of invoices - explaining the invoices and offering solutions for the resolution of disputes
- Adding or removing services
- Offering the best solutions and /or alternatives to customers to their concerns
- Managing benefits in a balanced way both for the client and for the company
